those who never up under the neurotics who made life a nulsance for man and beast, "The Great Dictator" is just another great comedy.

But if you bear in mind what I have written above, "The Great Dictator" (Star and Metropole) is just about one of the greatest films ever made. It first arrived after about a decade of sheer frightening misery for the world, during which the pronouncements of housepainter Hitler, and bullfrog Mussolini, rose in ever increasing hysteria.

It was not fun. Thousands of people were murdered prison camps; one by one the small states fell victim to the dictators' greed. Everyone was terrified of a war they knew they must fight. Almost everyone was convinced that these two blown up 10-cent-store invincible dictators were Cacsars.

Chaplin Then Charles laughed at them. And in a manner that stung them to fury. For he took on himself the role of a despised Jowish barber from the despised tions of the people conthe great Hiller, carries

Also, a scene of sheer genius; Captain John Mills hazards the when Chaplin-Hitler with a balloon model of the world, sert with the intention of having does a dance as fantastic as a an ice cold lager in Alexandria. madman's dream.

All that remains to say is, this film gave the world the biggest laugh of the century; and whenever the film is reissued, people still go on laughing.

66 IDGET" (King's and UT Princess) is it light-hearted teenage romance. In case you have any trouble about the title of the film, let me explain right away that it is a combination of the words, girl

and midget. This does not imply, however, understand, all this seems a that Sandra Dec is called to being; far from it; she is the petite Sandra Dee, and very pleasing in this role.

"Gldget" is a film you can recommend for the whole family. A few years ago it would have been described as "wholesome family entertainment." It is fun from the word "go," as youthful in spirit as the present generation; it should appeal to the young in heart story, Sylvia Syms and

everywhere.. Based on the novel of Frederick Kohner, the film has Miss Dec as a cute naive 16-year-old who is a bit behind her contemporaries in the

romance stakes. When a crowd of knowing girl friends take Sandra along the "monkeys" parade" Malibu Beach, she has little success; in fact, she prefers to go swimming.

While, swimming, Miss Dec secomes entangled in some senweed, but is rescued by James Darren, a young surfboard enthusiast. Sandra is so thrilled, not by Darren, but by surfboard riding that she takes up the sport herself.

I have given you enough of the plot, so now you are on l your own. --The-scene-of-the-wonderful. youthful summer; of Miss Dee who finds herself falling in love; the quarrels and misunderstandings; and how it all fits into the

Going around the rest of the cast, Cliff Robertson is there to form the third corner of the romance triangle, while the oldsters in this teenage fun romp are Arthur O'Connell and Mary LaRoche as understanding but bewildered parents of Miss Dec.

Her 39-year-old mother, Mrs Peggy Frank, had no trouble with three other children, but Zelda had bad bronchial bouts in her first month, twice seriously, and failed to put on weight. So she went to the Royal Berkshire Hospital for a check up, and was kept in a private ward for three months, before being sent on to Oxford's Radcliffe Infirmary, one of Britain's leading heart hospitals. And there specialists reported that she had three holes in her heart; and forecast that she only had another year to live. But at five months they operated, and successfully plugged one of the holes. Now she's building up strength for another operation—in July or August: an operation that could snatch for her a normal life expectancy.

The spotlight turns on Indian Recreation Club "A" this afternoon as the Colony lawn bowls league season approaches the halfway mark.

The Dock bowlers are playing top class bowls at the moment, and last week, despite playing away at Recreio, they were well within reach of a 4-1 or even n 5-0 victory when A. Skeoch's four collapsed in the second half of the game to give Recreio "A" a 3-2 victory.

Unless therefore, the Indian threes and skips rise to the occasion and strike their nearbest form, a 4-1 victory for the dockmen is extremely likely. The draw may play an important part, for if Jeff Hoosen's four, who have been producing consistently good bowls so, far draw Skeoch's four, they are fully capable of carrying the IRC side through

In spite of the modern touches the basic feature of gravity power still holds sway and the skill in getting to the winning line ahead of the opposition lies in the driver's ability to handle his 'machine' with dexterity and calmness.
